Lotus Europa - Colin Chapman’s mid-engined masterpiece Matthew Vale 2022-04-13 The Lotus Europa was Colin Chapman and Lotus’s first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners’ impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

Amedee Gordini Roy Smith 2013-04-05 This is a story of excitement, laughs, astonishment and anger - a story of the determination of a man with a dream and a passion for motor racing in the big leagues. It is the first time that the history of the always under-financed Gordini racing team has been documented in English, and the first complete story of Gordini himself in any language.This volume will appeal to new enthusiasts and old hands of Formula 1 and sports prototype racing, especially those who have owned a Gordini-badged high-performance Renault road car. It charts Gordini’s early life and beginnings in motorsport, up to 1969 when Renault took over the Gordini company, keeping his name on all the racing engines until 1986, before finally resurrecting it for a performance version of the Renault Twingo and Clio in 2009.The book is packed with evocative period images from important collections, supplementary transcripts in English from many contemporary interviews, plus recollections from former employees remembering their time working with Gordini, and an exhaustive set of statistics. All the way it’s a roller coaster of joy, despair, humour, and stunning images. The racing legend of ‘Le Sorcier’ lives on.

A Meaningful World Benjamin Wiker 2009-09-20 Meaningful or meaningless? Purposeful or pointless? When we look at nature, whether at our living earth or into deepest space, what do we find? In stark contrast to contemporary claims that the world is meaningless, Benjamin Wiker and Jonathan Witt reveal a cosmos charged with both meaning and purpose. Their journey begins with Shakespeare and ranges through Euclid’s geometry, the fine-tuning of the laws of physics, the periodic table of the elements, the artistry of ordinary substances like carbon and water, the intricacy of biological organisms, and the irreducible drama of scientific exploration itself. Along the way, Wiker and Witt fashion a robust argument from evidence in nature, one that rests neither on religious presuppositions nor on a simplistic view of nature as the best of all possible worlds. In their exploration of the cosmos, Wiker and Witt find all the challenges and surprises, all of the mystery and elegance one expects from a work of genius.
