How to Build Max-Performance Chevy LT1/LT4 Engines Myron Cottrell 2012 The LT1, along with its more powerful stablemate, the LT4, raised the bar for performance-oriented small-blocks until the introduction of the LS1 in 1997. The LT1/LT4 engines are powerful, relatively lightweight, and affordable. They powered Chevrolet’s Legendary Impala SS (and thousands of similar police cars), Corvettes, and Camaros and remain viable choices for enthusiasts today. This book investigates every component of these engines, discussing their strong and weak points and identifying characteristics. Upgrades and modifications for both improved power production and enhanced durability are described and explained in full.

American Cars, 1973_1980 J. [Kelly] Flory, Jr. 2012-12-03 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge’s Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer’s significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

COPO Camaro, Chevelle & Nova Matt Avery 2018-09-14 The COPO Camaros, Chevelles, and Novas of the 1960s and early 1970s were the ultimate high-performance GM muscle cars. While few knew about this back channel program at the time, it is now recognized as the origin of GM’s top muscle cars. Dedicated Chevy racers and car owners were determined to compete head-to-head with Mopar and Ford at the racetrack and on the street. But in order to do so, they needed to circumvent the corporate ban on racing and resolve the restriction of 400-ci engines in intermediate vehicles. Don Yenko and some other creative individuals recognized the loophole in the COPO (Central Office Production Order) system at General Motors. The COPO program was designated for fleet vehicles such as taxicabs, but at the peak of the muscle car wars it was used to build the ultimate high-performance Chevy muscle cars. Some horrific on-track accidents compelled General Motors to drop out of racing, yet GM did not want to allow Chrysler and Ford to steal the glory on Sundays while they stood on the sidelines. As a result, GM inconspicuously ran the Chevy racing and high-performance program through back channels, and COPO was integral part of the program. Don Yenko became the COPO muscle car program chief architect and champion. He ordered the Corvair through the COPO program and created the Corvair Stinger to mount a SCCA road race campaign. From these humble beginnings, the road map for creating the ultimate Camaros, Chevelles, and Novas was established. Factory Camaro V-8s came equipped with the 350 small-block or 396 big-block, which had to compete with the Mustang Cobra Jets and Mopar Wedge and Hemi cars. In response, building the big-block Camaro through the COPO program was devised. At the factory, Camaros were fitted with the 396 engines and shipped to dealers where the 427s were installed in the cars. From 1967 to 1969, the factory and dealers installed eight different 427 engines, including the all aluminum Z11 427. Later on, others used the road map to build COPO Novas and Chevelles to similar spec, with similar results. The COPO performance car program did not end with these muscle cars. Yenko even ordered several hundred Vegas through the COPO program, so they could be fitted with turbochargers and raced in SCCA competition. Chevy muscle car aficionado and author Matt Avery retraces the history of the COPO program and the creation of these premier muscle cars. He has scoured archives and tracked down owners and personnel involved in the program to deliver a comprehensive story and complete guide to the COPO cars. The COPO muscle car and racing program produced a storied and remarkable journey, and author Matt Avery captures all these facets in this entertaining and revealing history. p.pl {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Flaming Floorboards Steve Tom 2012-03-12 Are you tired of cleaning spiders out of your gas gauge? Have you driven for miles wondering what that funny smell was, only to discover your seat was on fire? Did your tender first kiss leave your date needing medical attention? If you can answer "yes" to all three questions, you’re probably the author of this book. "Flaming Floorboards" is a true account of these and many similar adventures which befell the author, a man who ambled through life adopting stray cars the way other people adopt stray cats. He came of automotive age during the 1960’s, the golden age of muscle cars. Surrounded by Camaros, Mustangs, Super Birds, and their ilk, his dream car was a Stanley Steamer. (Looking back, the author admits it may not have been a coincidence that he didn’t get many dates.) He never did get a Stanley, but over the years he drove thousands of miles in cars such as a Model A Ford, a Jaguar E-Type, a pair of mid-60’s Chevy Impalas, a handful of MG’s, and other memorable automobiles. These were not shiny classics when he drove them. They were rusted hulks that he rescued from the salvage yard. In his struggles to keep these rolling wrecks on the road he encountered people like Fr. Dupree, a reporter/pool shark turned Episcopal priest; Luis Riccotto, the proprietor of Riccotto and Sons Imported motors; and Otis Swineheart, a man of few words and fewer teeth. "Flaming Floorboards" is a warm and funny story about an extraordinary cast of cars and characters.

The trouble begins when Harry’s dear friend Miranda Hogendobber takes her on a leisurely drive that ends in a narrow drainage ditch. Despite numerous warnings from her much-loved coterie of friends, human and otherwise, Harry quickly surmises that the time has come to pop the hood and conduct her own investigation. Her animal companions see disaster fast approaching but can do little except try their best to protect their foolishly intrepid human. Includes a preview of Rita Mae Brown and Sneaky Pie Brown’s next Mrs. Murphy mystery, The Litter of the Law. "Harry and her pals are on the case. . . . [Brown] fills the series with rich central Virginia color, and readers will greet the recurring characters with fondness."—Richmond Times-Dispatch "[A] delightful book."—Huntington News **The All-American Muscle Car** Joe Oldham 2017-05-22 The All-American Muscle Car provides the ultimate hands-on history of the American Muscle car and where it is now -- Mustangs, Camaros, 'Cudas, Challengers, you name it. When John Z. DeLorean and his cadre of enthusiastic rule benders took it upon themselves to bolt Pontiac's hottest engine into a mid-sized Tempest, disobeying orders from the top of General Motors food chain, they created something that should not have been, and will never be again: the muscle car. The resulting GT0 spearheaded a new breed of performance car aimed at a new breed of buyer: the baby boom generation, tens of millions of young customers entering the market each year. The All-American Muscle Car: The Rise, Fall and Resurrection of Detroit’s Greatest Performance Cars tells the story of these brutal performance machines through the words of muscle-car icons like Jim Wangers, the man who marketed DeLorean’s tuggish invention, Joe Oldham, a legendary automotive journalist who tested these cars when they first came off the production line, often via illegal street racing, and classic-car broker Colin Comer, who has been instrumental in restoring some of the most iconic (and valuable) muscle cars. Top muscle car experts like Randy Leffingwell and David Newhardt tell other facets of the muscle-car story, like the pony-car wars between the Mustang, Camaro, 'Cuda, and Challenger; the ultra-high performance dealer specials; and the rebirth of the modern muscle car. All told, this book provides the ultimate hands-on history of these most American of cars.

Twin Cyborgs Terry Oberley 2012-09 One purpose of this memoir is to describe to my sons Matthew and Alexander, granddaughters Sophia and Juliet, and any future grandchildren the driving forces that determined my destiny. I have often toyed with the idea of writing my memoir, but the writing would never have happened if not for the deaths of my father, Jim, in 2002; mother, Ruby, in 2006; beloved twin brother, Larry, in 2008; and treasured wife, Edith, in 2009. I realized that the memories of these special people would be lost forever if I did not commit them to paper as soon as possible. Our lives are finite, and our accomplishments seem ephemeral. Thus, in comparison to the seemingly ageless universe, the details of our lives appear to be mere vanity.

Fundamentals of Automotive Technology Vangelder 2017-02-24 Resource added for the Automotive Technology program 106023. **Camaro** Mike Mueller 2017-01-02 Camaro: Fifty Years of Chevy Performance chronicles the first fifty years of Chevrolet’s iconic Camaro through fascinating photography, history, and commentary about this legendary pony car. The early 1960s saw American auto manufacturers desperately trying to sell cars to the emerging baby-boom market. Chevrolet attained some success with its sporty Corvair Monza. Ford responded first with a sportier Falcon, then with its grand-slam, home-run pony car, the Mustang. At first, Chevrolet hesitated to abandon the technologically advanced Corvair, but when it finally entered the pony car market in 1967, its new Camaro instantly became one of the most iconic cars of the classic muscle-car era. When muscle cars went dormant for a generation, it was once again the classic pony cars that jump-started American performance. The battle that raged between Camaro and Mustang in the 1980s rejuvenated the US auto industry’s interest in high-performance muscle cars. The Camaro lost its way in the 1990s, with Chevrolet pursuing technological advances and Ford pursuing classic American muscle. As was the case in the 1960s, Ford’s muscular pony car trounced Chevrolet’s technologically advanced sporty car in the race that mattered most: showroom sales. The Mustang thrived while the Camaro left the scene. Fortunately, that departure was only temporary. Chevrolet introduced a twenty-first-century Camaro in 2010, and it has become one of Chevrolet’s most popular models. With stunning photography from author Mike Mueller and never-before-seen archival photography from partner General Motors, Camaro: Fifty Years of Chevy Performance chronicles the Camaro’s rich history, from the early attempts to reach the youth market in the 1960s, through the potent and turbulent years of the classic muscle-car era, the resurgence of muscle in the 1980s, the sad decline of the 1990s, and the triumphant rebirth of the new car in this new millennium.

Road & Track Iconic Cars: Mustang Larry Webster 2015-10-26 This eBook collects 50 years of articles and reviews on the

iconic American sports car from the experts at Road & Track. Nothing says America like the Ford Mustang, the original pony car and the country's most beloved sporting machine. This fully illustrated volume, pulled from the pages of Road & Track, documents the rise of this automotive icon—the brainchild of crude engineering, modern styling, and fantastic marketing. This eBook looks back across 50 years of coverage, from recaps of Ford's game-changing win at Le Mans in 1966 to the dark years of the Mustang II. There are road tests, comparisons, and reviews from the R&T archives. Taken as a whole, this half-century of automotive journalism demonstrates why the car that defined a generation continues to mean so much to so many.
