Born On The Fourth Of July Universal Home Video 2000 The acclaimed film follows the young Ron Kovic from a zealous teen who eagerly volunteers for the Vietnam War, to an embittered veteran paralyzed from the mid-chest down. Deeply in love with his country, Kovic returned to an environment vastly different from the one he left, and struggled before emerging as a brave new voice for the disenchanted.

Hurricane Street Ron Kovic 2016-06-13 The author of Born on the Fourth of July delivers "a harrowing, poignant telling of the American Veteran's Movement and its members' struggles" (Manhattan Book Review). In the spring of 1974, as the last American troops were being pulled out of Vietnam, Ron Kovic and a small group of other severely injured veterans in a California VA hospital launched the American Veterans Movement. In a phenomenal feat of political organizing, Kovic corralled his fellow AVM members into staging a sit-in, and then a hunger strike, in the Los Angeles office of Senator Alan Cranston, demanding better treatment of injured and disabled veterans. This was a short-lived and chaotic but ultimately successful movement to improve the deplorable conditions in VA hospitals across the

country. Hurricane Street is their story—one that resonates deeply today—told by Kovic in the passionate and brutally honest style that led to over one million sales of Born on the Fourth of July. "Another raw exposé on the cost of war . . . The book is an unflinching anti-war declaration, written in blood and the sweat of too many haunted nights by a Vietnam Marine Corps sergeant who later opposed the wars in Iraq and Afghanistan." —Los Angeles Times "A deeply moving account of the struggle of Vietnam veterans to hold politicians accountable to the maimed warriors they sent into harm's way and then abandoned." —Robert Scheer, author of They Know Everything About You "An impassioned and timely memoir about the 1974 American Veterans Movement that will strike a chord with veterans and their families today." —Publishers Weekly, Top 10 Pick for Spring 2016

Remembering Viet Nam Regula Fuchs 2010 How does American culture deal with its memories of the Vietnam War and what role does literature play in this process? Remembering Viet Nam is a fascinating exploration of the ways in which authors of Vietnam War literature represent American cultural memory in their writings. The analysis is based on a wide array of sources including historical, political, cultural and literary studies as well as works on trauma. It begins with an examination of American foundation myths - their normative, formative and, most of all, their bonding nature - and the role institutions such as the military and the media play in upholding these myths. The study then considers the soldiers' and war veterans' minds and bodies and the stories they tell as key sites in the debates over the war's place in American cultural memory. The multilayered approach of Remembering Viet Nam allows the investigation of Vietnam War literature in its whole breadth including the debates instigated by the works examined and the influence these narratives themselves have on American cultural memory. Most importantly, the analysis uncovers why American foundation myths - despite their being thoroughly questioned and even exposed as cultural inventions by authors and reviewers of Vietnam War literature - can still retain their power within American society.

Reading Embodied Citizenship Emily Russell 2011-02-25 Liberal individualism, a foundational concept of American politics, assumes an essentially homogeneous population of independent citizens. When confronted with physical disability and the contradiction of seemingly unruly bodies, however, the public searches for a story that can make sense of the difference. The narrative that ensues makes "abnormality" an important part of the dialogue about what a genuine citizen is, though its role is concealed as an exception to the rule of individuality rather than a defining difference. Reading Embodied Citizenship brings disability to the forefront, illuminating its role in constituting what counts as U.S. citizenship. Drawing from major figures in

American literature, including Mark Twain, Flannery O'Connor, Carson McCullers, and David Foster Wallace, as well as introducing texts from the emerging canon of disability studies, Emily Russell demonstrates the place of disability at the core of American ideals. The narratives prompted by the encounter between physical difference and the body politic require a new understanding of embodiment as a necessary conjunction of physical, textual, and social bodies. Russell examines literature to explore and unsettle long-held assumptions about American citizenship.

Inventing Vietnam Professor Michael Anderegg 1991
The Vietnam War has been depicted by every available medium, each presenting a message, an agenda, of what the filmmakers and producers choose to project about America's involvement in Southeast Asia. This collection of essays, most of which are previously unpublished, analyzes the themes, modes, and stylistic strategies seen in a broad range of films and television programs. From diverse perspectives, the contributors comprehensively examine early documentary and fiction films, postwar films of the 1970s such as *The Deer Hunter* and *Apocalypse Now*, and the reformulated postwar films of the 1980s—*Platoon*, *Full Metal Jacket*, and *Born on the Fourth of July*. They also address made-for-television movies and serial dramas like *China Beach* and *Tour of Duty*. The authors show how the earliest film responses to America's involvement in Vietnam employ myth and metaphor and are at times unable to escape

glamorized Hollywood. Later films strive to portray a more realistic Vietnam experience, often creating images that are an attempt to memorialize or to manufacture different kinds of myths. As they consider direct and indirect representations of the war, the contributors also examine the power or powerlessness of individual soldiers, the racial views presented, and inscriptions of gender roles. Also included in this volume is a chapter that discusses teaching Vietnam films and helping students discern and understand film rhetoric, what the movies say, and who they chose to communicate those messages.

Author note: Michael Anderegg is Professor of English at the University of North Dakota, and author of two other books: *William Wyler* and *David Lean*.

Virgin Film: Oliver Stone Stephen Lavington 2011-11-30
Three-time Oscar

winner Oliver Stone is one of the most controversial and well-known contemporary American directors. He began his professional life as a screen writer and was responsible for the scripts of *Midnight Express* and *Scarface*. As a director he made one of the all-time great Vietnam war movies, *Platoon*, and went on to helm such definitive cinematic works as *Wall Street*, *Born on the Fourth of July*, *JFK*, *Natural Born Killers* and, most recently, *Alexander* - an epic biography of the legendary Greek king starring Colin Farrell and Anthony Hopkins. This indispensable guide takes each of Stone's writing and directorial features in chronological order, discussing them within categories such as Casting, Cut Scenes, Music Conspiracy Theory? and Controversy. It looks at the inspiration behind his work, its connection with the real world and the story behind each film's development. Whether the subject is war, politics, sport or the defining aspects of an era, Stone is an expert at polarising audience views. This is an essential reference for all fans of Oliver Stone, writer, director and one of the most influential filmmakers of the last twenty-five years.

Recreating American Mythology. Vietnam Veterans in Oliver Stone's "Born on the Fourth of July" and "Heaven & Earth" Thomas Hunziker 2020-06-22 Seminar paper from the year 2001 in the subject English Language and Literature Studies - Literature, grade: 5,5 (Schweiz), University of Zurich (Englisches Seminar), course: Seminar: «From Disneyland to Da Nang», language: English, abstract: The myth of the United States was that they are invincible, and this was also reflected in the war movies and westerns during and after World War II. When the US entered the Vietnam

War the experience of the soldiers proved to be different from the representations of war they had witnessed in movies. The traditional combat films were unable to adapt the new signifiers of the Vietnam war and the genre was abandoned for a while. Rejecting the notion of invincibility, directors after the Vietnam War depicted the horror and madness of the conflict and, indeed, rebuilt a new myth. One of the directors who decided to craft a new combat film was Oliver Stone. While he received critical praise for «*Platoon*» (1986) and his depiction of the Vietnam War was confirmed by many veterans, he was publicly denounced as a traitor and attacked for the representation of the war in «*Born on the Fourth of July*» (1989). Although his most hostile critics chose to attack the alternation of facts, Stone was – and still is – criticized or applauded for debunking old myths and creating new ones. For an investigation of Oliver Stone's technique of creating new myths, this essay analyzes his films «*Born on the Fourth of July*» and «*Heaven & Earth*» (1993).

The Fantasy of Disability Jeffrey Preston 2016-07-15 What are the unconscious fantasies circulating in representations of disability? What role do these fantasies play in

defining the condition of disability? What can these fantasies teach us about human vulnerability writ large? *The Fantasy of Disability* explores how popular culture texts, such as *Degrassi: The Next Generation* and *Glee*, fantasize about what life with a physical disability must be like, while at the same time exerting tremendous pressure on disabled individuals to conform their identity and behaviour to fit within the margins of these societally perpetuated archetypes. Rather than merely engaging with how disability is represented, though, this text investigates how representations of disability reveal their nondisabled producers to be perpetually anxious subjects, doomed to fear not just the disabled subject but the very reality of disability lurking within. Situated at the nexus of disability studies, media studies and psychology, this text presents an innovative way of analyzing representations of disability in popular culture, inverting the psychoanalytic gaze back upon the nondisabled to investigate how disability can become a lens through which to interrogate the normate subject.

The War Film Robert T. Eberwein 2004 War has had a powerful impact on the film industry. But it is not only wars that affect films; films influence war-time behavior and incisively shape the way we think about the battles that have been waged. In *The War Film*, Robert Eberwein brings together essays by scholars using a variety of critical approaches to explore this enduringly popular film genre. Contributors examine the narrative and aesthetic elements of war films from four perspectives: consideration of generic conventions in works such as *All Quiet on the Western Front*, *Bataan*, and *The Thin Red Line*;

treatment of race in various war films, including *Glory*, *Home of the Brave*, *Platoon*, and *Hamburger Hill*; aspects of gender, masculinity and feminism in *The Red Badge of Courage*, *Rambo*, *Dogfight*, and *Courage under Fire*; and analysis of the impact of contemporary history on the production and reception of films such as *The Life and Times of Rosie the Riveter*, *Saving Private Ryan*, and *We Were Soldiers*. Drawing attention to the dynamic interrelationships among politics, nationalism, history, gender, and film, this comprehensive anthology is bound to become a classroom favorite.

Trash Culture Richard Keller Simon 1999-11-23 *Seinfeld* as a contemporary adaptation of Etherege's Restoration comedy of manners *The Man of Mode? Friends* as a reworking of Shakespeare's romantic comedy *Much Ado About Nothing?* *Star Wars* as an adaptation of Spenser's epic poem, *The Faerie Queene?* The popular

culture that surrounds us in our daily lives bears a striking similarity to some of the great works of literature of the past. In television, movies, magazines, and advertisements we are exposed to many of the same stories as those critics who study the great books of Western literature, but we have simply been encouraged to look at those stories differently. In *Trash Culture*, Richard K. Simon examines the ways in which the great literature and cultural work of the past has been rewritten for today's consumer society, with supermarket tabloids such as *The National Enquirer* and celebrity gossip magazines like *People* serving as contemporary versions of the great dramatic tragedies of the past. Today's advertising repeats the tale of the Golden Age, but inverts the value system of a classic utopia; the shopping mall combines bits and pieces of the great garden styles of Western history, and now adds consumer goods; *Playboy* magazine revises Castiglione's Renaissance courtesy book, *The Book of the Courtier*; and *Cosmopolitan* magazine revises the women's coming-of-age novels of Jane Austen, Gustave Flaubert, and Edith Wharton. *Trash Culture* concludes that the great books are alive and well, but simply hidden from the critics. It argues for the linking of high and low for the study and appreciation of each form of literature, and the importance of teaching popular culture alongside books of the great tradition in order to understand the critical context in which the books appear.

Oliver Stone's America Susan Mackey-kallis 2019-05-28 This book represents an illustrated, critical analysis of filmmaker Oliver Stone and his works, placing him in the tradition of American political

artists. Oliver Stone—polemicist, leftist, artist, and—surprisingly for politically conservative America—mainstream director—is one of the most controversial American filmmakers in Hollywood. His films include *The Adaptation of Ron Kovic's Memoir, Born on the Fourth of July* Joseph Schickel 1988

Revisiting Vietnam Julia Bleakney 2013-09-13 This book explores the memorializing practices of American veterans of the Vietnam War at several of the most significant contemporary sites of memory in the United States and Vietnam. These sites include veterans' memoirs, museum exhibits, replicas of the National Vietnam Veterans Memorial, and tourism to Vietnam. Because war memorializing has, since the late 1960s, shifted focus from national soul searching to personal identity and recovery, I emphasize how contemporary narratives of the war, shaped more by memory than by history, often are detached from the specific history of the war and its political controversies. Drawing on trauma and cultural memory scholarship, as well as empirical data gathered during field research in the U.S. and Vietnam, the author examines how veterans' memorializing practices have become increasingly individualized, commodified, and conservative since the early 1980s.

The War Veteran in Film Emmett Early 2010-07-27 Movies have provided a record of the war veteran as he was viewed within his own culture and within the culture in which the movies were produced. Thus, movies account for a significant portion of what people "know" about the war veteran and how he fared during and after the war. In this book, the author examines 125 movies from the classical era to the 20th century that feature the war veteran. The author provides commentary on specific categories the films can be organized into and notes similarities between films produced in different periods. The categories deal with the wounded veteran returning home (e.g., *The Sun Also Rises*, *The Best Years of Our Lives*, *Born on the Fourth of July*, *The Manchurian Candidate*); the veteran struggling with guilt, revenge and post-traumatic stress disorder (*Anatomy of a Murder*, *Lethal Weapon*, *Desert Bloom*, *In Country*,

Jacob's Ladder); the war veteran returning in disguise (Ulysses, Ivanhoe, The Seventh Seal, The Man in the Gray Flannel Suit); the war veteran as a social symbol (Dances with Wolves, Gosford Park, The Legend of Bagger Vance, The Big Chill, Gods and Monsters, Cornered); the war veteran in action (The Born Losers, Conspiracy Theory, She Wore a Yellow Ribbon, Saint Jack, Looking for Mr. Goodbar); and the war veteran before, during and after the war (The Deer Hunter, Forrest Gump).
